JUDGMENT DAY IN COAL CRISIS

GARFIELD ORDER CURTAILS LIGHT AND HEAT HERE

THREE BANDITS ARE SHOT DOWN BY GUARDS AT ORWELL BANK

'Tip' Results In Surprise
for Gang of
Yeggs.

TWO MEN ESCAPE

Robbers Open Battle When
Ordered to Throw Up
Hands.

ORWELL, O., Dec. 9.—In a gun battle early today, two bank robbers were killed and a third badly wounded.

A posse is searching for two members of the bandit gang who escaped. A week ago bank officials at Orwell received a "tip" that the savings bank there was to be robbed. This did not materialize but on account of the similarity of names the bank at Orwell was notified.

Sheriff Eldred of Ashtabula county was called upon to guard the bank and with three deputies was on guard when the bandits entered the bank. When ordered to throw up their hands the bandits gave battle.

The men were all from Pittsburgh, according to Sheriff Eldred. They have not been identified but were Poles, the sheriff said.

Investigation today convinced officials that there had been five men in the band, one remaining outside as a lookout.

Sheriff Eldred and his deputies had been on guard in the bank for three nights.

This morning just after 1 o'clock noises were heard and a minute later the four men gained entrance to the bank by forcing a door.

The tip which originally went to the Orwell bank and caused guards to be thrown about it, came from a Pennsylvanian who said that he had learned of the plot as a detective.

SECOND ARREST IN BOOZE CASE

Ambrose Hancock Accused of
Receiving Stolen
Liquor.

On an information preferred by Thomas H. Cloran, charging him with receiving stolen goods and embezzlement, Ambrose Hancock, proprietor of a Dresden avenue soft drink establishment, was arrested late Monday afternoon. Hancock has been held under a \$2,000 bond, pending a preliminary hearing which will take place on December 15.

The arrest of Hancock is another chapter in the case of the mysterious disappearance of 19 barrels of whiskey from the Eugene Thorn farm, near Round Knob, about three weeks ago. The whiskey, valued at approximately \$20,000 was the property of Cloran who had stored it in a barn on the Thorn farm for safe keeping.

Hancock is charged with receiving six barrels of whiskey, the contents of which was valued at \$3,332. Attorney J. H. Brookes has been retained as the defendant's counsel.

STORES, DANCE HALLS AND POOL ROOMS HIT; TRAIN SERVICE IS CUT

**Drastic Restrictions Placed On
Use of Electricity and Coal In
Effort to Conserve Fuel—Fuel
Administration Restores Regu-
lations in Effect During Wartime
Period.**

Curtalement in the use of electric power for lighting purposes, the re-establishment of wartime regulations as pertaining to the heating of business houses, offices and public buildings, reduction in train service and other drastic restrictions with regard to the use of electric current in industries which are not regarded as essentials or public utilities became effective in the East Liverpool district Tuesday, in accordance with orders for coal conservation, issued by Federal Administrator Garfield, pending a settlement of the strike of the coal miners.

The entire city is practically hit by the order, which reduces the use of electric light to a minimum, by shortening the hours for all public offices, buildings, stores, dance halls, poolrooms and such places. Manufacturing plants must not use light longer than they are permitted to use power.

RESTRICTIONS ON FUEL

All lights, other than those necessary for the safety of the public, have been ordered discontinued.

Cabarets, dance halls and pool rooms are allowed to be open only from 7 p. m. until 11 p. m.

Stores, with the exception of those selling food, must not use light longer than six hours a day.

Manufacturing plants are allowed to use light only so long as they are allowed to use power.

Drug stores and restaurants are ordered to reduce their lighting one-half.

Lights in office buildings are ordered cut off at 4 p. m. with the exception of those offices necessary to the maintenance of a vital industry.

Orders have been issued to maintain heat only to an average of 65 degrees Fahrenheit.

Orders discontinuing the operation of six trains over the C. & P. branch of the Pennsylvania railroad were received here Tuesday morning by Ticket Agent Hodgkinson. The new schedule, which becomes effective on Wednesday, eliminates the following trains:

East bound—Train No. 442, leaving Wellsville at 3:25 p. m. daily, arriving here at 3:34 o'clock.

Train No. 262, leaving Alliance at 7:20, reaching here at 9:03 a. m.

Train No. 272, leaving Wellsville at 5:29 a. m., arriving here at 5:39 a. m. Sunday only.

West bound—Train No. 423, leaving Pittsburgh at 8:45 a. m., arriving here at 10:12, daily.

Train No. 263, leaving Pittsburgh at 4:05 p. m., arriving here at 5:39 p. m. daily.

Train No. 7351, leaving Pittsburgh at 7:20 a. m., arriving here at 9:20 a. m. Sunday only.

H. B. Barth, who was a member of the Columbiana county fuel committee during the time when the wartime regulations were in effect, was awaiting word, Tuesday morning, reviving the committee, in a movement to bring about the enforcement of the new regulations. However, this matter of providing for the enforcement of Dr. Garfield's orders for the present time is up to city and county officials.

An official of the East Liverpool office of the Buckeye Power company, which supplies electric current to East Liverpool and Wellsville announced at noon Tuesday that the restrictions on the use of electric current in their fuel administration must be carried out. No electric current will be allowed for display signs, while merchants must also agree to cut down on the use of electric current in their stores. Stores will not be permitted to use illumination for their display windows beginning with Tuesday

CINCINNATION TO DEFY GARFIELD

**Head of Merchants' Association Will Ignore Six-Hour
Day Order for Stores, He
Says.**

CINCINNATI, Dec. 9.—George Golde, president of the Retail Merchants' association of the Chamber of Commerce, in a statement today defies Fuel Administrator Garfield's six hours a day order for stores to remain open for business.

"The war is over and Professor Garfield may run his college classes, but he can not run my business," said Golde. "I am going to keep my stores open irrespective of what Gar-

field says. I will also recommend to the Retail Stores' association of the Chamber of Commerce that they secure legal counsel, if necessary, to fight this order of Garfield's closing down our businesses in the busiest time of the year.

"During the war I enthusiastically obeyed every order issued from Washington, but the war is over. It is high time that business men arise, assert themselves and maintain their rights against the crowd of incompetents forming the administration at Washington. I disagree with them entirely."

A meeting of the Retail Stores' association will probably be held today to consider the emergency. The matter will be fought out in the courts if necessary, it is said.

CITY LAGGING IN SEAL SALES

Last Liverpool Must Speed Up
to Reach \$2,000
Quota.

East Liverpool is lagging in the Red Cross Christmas seal sales, according to an announcement made Tuesday morning by Mrs. Louis Steinfield, chairman of the campaign in this city.

If the city is to reach its quota of \$2,000, she must hurry, was the statement of the chairman.

The workers launched their "Good Luck" campaign in theatres Monday evening, when a committee made up of Mrs. Christ Mettsch, Mrs. Ben L. Bennett, Mrs. Olen Dawson and Miss Sarah Vorey were in charge of a booth at the Ceramic theatre, offering the stamps to theatregoers. But one stamp was offered to a person, the purchaser being allowed to pay whatever sum he so wished for the adhesive. Mrs. Chris Pusey is chairman of the theatre committee. About \$29 was realized from the theatre campaign Monday evening.

The drive will be continued at the theatres again Tuesday evening and for the remainder of this week. The drive will close Wednesday evening. Santa Claus was at the Ogilvie store again Monday, the committee at this store capturing honors for the sales of the day. The committee included Mesdames L. E. Connor, George Stevenson, Homer Taylor and Robert Spooner.

DECKS ARE CLEARED FOR SETTLEMENT OF MINE CONTROVERSY

**First Definite Move Toward Ad-
justment of Dispute Over Wage
Scale is Postponement of Con-
tempt Proceedings and Investi-
gation of Wartime Activities of
Operators and Miners.**

INDIANAPOLIS, Ind., Dec. 9.—The decks were cleared today for a settlement of the coal strike this afternoon.

At 10 o'clock United States government attorneys, headed by Attorney General A. Mitchell Palmer, appeared before Federal Judge Anderson here and asked that both the contempt proceedings and the investigation of wartime activities of the coal operators and miners be continued until next week.

Attorneys representing the miners' unions concurred in the government's request for a continuance of cases, thereby removing another obstacle in the way of settling the strike.

The hearing of contempt charges against 84 officials of the United Mine Workers of America was set for December 16 at 10 a. m.

The federal grand jury investigation of alleged profiteering by the coal

OFFER EQUITABLE, CLAIM

WASHINGTON, Dec. 9.—Secretary of Labor Wilson today telegraphed to John L. Lewis, acting president of the United Mine Workers, urging that the miners accept the proposal of President Wilson for the settlement of the strike.

The president is the friend of the "under dog" and his proposal may be relied upon as an equitable one, Secretary Wilson said, and added "by stopping work in the mines you have created the most difficult industrial situation the country has ever had to bear."

operators and of conspiracy to restrict the production of coal by both operators and miners during the war time was set for Wednesday December 17 at 10 a. m.

There were no indications that the contempt charges against the miners' officials would be dropped when the case is called next Tuesday. At the same time there were no indications that the charges would be pressed. Government attorneys refused to state what action they contemplated in case the coal miners accept the government proposition for a settlement of the strike at the meeting at 2 o'clock this afternoon.

Immediately after the continuing of both cases the miners' officials left the building to meet at their headquarters this afternoon to consider the government's proposal for the settlement of the strike.

Announcement will be forthcoming at 2:45 this afternoon as to the terms contained in the president's offer to the miners. It was announced by Attorney General Palmer subsequent to the close of the court session today.

Acceptance by time conference of miners' officials of the wage proposal made by President Wilson will bring the coal strike to a definite end, according to John L. Lewis, acting president of the Mine Workers, who accepted the proposition made by President Wilson in Washington.

"There can be no question, but that the strike will be definitely ended and the men will return to work if the conference accepts President Wilson's proposal," declared Lewis.

"The miners' executive already had expressed the belief that the conference would ratify the government's terms."

Lewis steadfastly declined to reveal the amount of wage increase contained in the government's offer.

"Will the price of coal to the public be increased if the president's wage proposition is accepted?" he was asked.

"That bears on the entire subject matter of the situation and I am not in a position to answer," Lewis replied.

Today in the opinion of government and miners' circles is the "judgment day" in the coal crisis.

DELAY HEARING OF UNION HEADS

**Government Postpones Trial
of Mine Workers' Officials
Charged with Contempt of
Court.**

INDIANAPOLIS, Ind., Dec. 9.—At the request of Judge C. B. Ames, special assistant to Attorney General Palmer, the hearing of charges of contempt of court against 84 officials of the United Mine Workers of America were continued until Tuesday, December 16.

Judge Ames appeared at the federal building and stated that since the contempt proceedings were started "certain facts had arisen which made it necessary that the hearing of the charges of contempt of court against the miners and officials be continued."

Federal Judge Anderson then suggested Tuesday as the day on which

the trial of the accused miners' officials would be started.

Attorneys representing the miners' officials concurred in the request by Judge Ames for a continuance of the case.

District President John Saxton of Salineville, was one of the 84 officials of the miners' union charged with contempt of court.

VIENNA, ONCE ONE OF GAYEST CENTERS, NOW CITY OF DOOM

**Municipality May Become
"Graveyard of Europe,"
Says Investigator.**

NEEDS FOOD AND FUEL

**Capital Being Starved to
Death as Result of
Political Fight.**

By FRANK MASON.

VIENNA, Dec. 9.—(Via Berlin and London.)—From one of the gayest pleasure-loving cities of Europe, Vienna has become a city of doom.

A great political fight has developed in Austria and the country is deliberately starving the capital to death.

From the pre-war population of 1,700,000, fewer than 1,000,000 souls survive in this grim famine-ridden spot today, and men, women and children are dying by the thousands. The city is without fuel and thousands more will perish from cold unless help is given from outside sources immediately. Whole families are being wiped out. The thousands of refugees who fled into Vienna hoping for aid have been caught in the whirlwind of death. Children have been without milk for a year. Men and women fight for crusts. The factories are idle and the gaunt workmen stalk the streets eagerly seeking a handful of food to carry home to their starving families. The cemeteries were long ago overcrowded with the ever-growing population of corpses. And above all this terrific horror the magnificent buildings, which once made Vienna rank as one of the foremost cities of the continent in architecture, stand like grim and forbidding monuments.

The country districts of Austria are conservative and reactionary in political thought and refuse to give aid to the capital city which they regard as radical.

Although the farmers and the residents of small towns are not reveling in plenty they have quantities of food which it is believed they could spare for the population of this city. If you ask a resident of the rural districts why the country people are not helping the starving city the invariably answer is:

"Why should we send food to

SILK STOCKING RATE HIGH ON FARM, CLAIM

Official of Farm Women's Congress Raps New York Physician.

MODESTY IN DRESS

Mrs. Bengina Green Karb Says Farm Woman Is No Back Number.

WASHINGTON, Dec. 9.—Attention, please—the farm woman rises to speak on the subject of modesty and immodesty in dress.

Now take this Dr. Copeland person, health commissioner of New York City—what does he know about farm women's stockings? Where does he get that stuff about city women being more inclined to silk stockings than her country sister?

Let the "Doc" come hither and tend an ear to Mrs. Bengina Green Karb, of Houston, Tex., secretary-treasurer of the Farm Women's National Congress now in Washington exerting her efforts in behalf of suffrage.

"Rot!" says Mrs. Karb right into the doctor's ear.

She challenges him to produce statistics showing the silk stocking rate any higher among city women than among farm women.

The farm woman is no back number, Mrs. Karb declares. She rouses, she corrects, she decolletes, she "Robert Chambers"; she does everything New York women do—well, maybe not everything, but almost.

Want to know Mrs. Karb's idea of a sensible costume for women? Middy blouses, bloomers and sandals with or without stockings!

Is flying parson Maynard listening? "The race will not be healthy until it learns to wear less clothes," says Mrs. Karb. "The sensible woman wears thin clothes. The thinner the clothing the more chance the skin has to get air. Certainly I do not disapprove of low cut gowns. Of course they must be worn on suitable occasions. The modesty or immodesty of dress depends on the state of mind of the observer."

Discussing silk stockings and the flu she says:

"I agree with Dr. Copeland that silk stockings are better for the health than woolen ones. When he tries to prove it by showing that the mortality rate among farm women is higher than among city women he is all wrong. Correct statistics show more deaths among city women than among farm women. Following Dr. Copeland's own line of argument more farm women must wear silk stockings than city women."

"What city people seem to forget is that there are classes in the country as there are in the city. The class of women in the country that has the price to buy silk stockings buys them."

"The rich farm woman dresses as smartly as any woman on Fifth avenue when the occasion calls for it. Her girl goes to college and absorbs the same ideas as the city girl."

"No, I do not approve of rouge. It shows bad taste. I do not agree with Dr. Copeland's statement that it does no harm to the skin."

strengthen the Bolshevik government."

Whether or not Lenin and Trotzky recognize the Vienna government headed by President Seitz and Premier Renner does not alter the situation that living conditions here are desperate and are becoming more critical hour by hour. But in spite of this state of affairs a large part of the people controlling the food supply regard Vienna as Bolshevik and are either indifferent or else refuse to send any foodstuffs here at all.

The government complains bitterly of this lack of sympathy and co-operation of the part of the country districts. Vienna has been practically disowned by what remains of the Austrian Tyrol districts. They are even refusing to send representatives to the parliament in this city.

There is a feeling among many classes that the country should either be annexed to Germany or else the allies should be allowed to occupy and govern Austria. It is imperative that there should be a strong hand at the helm of the ship of state at all.

"It is far better to see Austria become a colony than a cemetery," said one personage in discussing the alarming situation.

TEACHER MAY FACE CHARGE OF MURDER

COLUMBUS, Dec. 9.—First degree murder is likely to be the charge placed against Miss Ella Jackson, 24, former Sunday school teacher, here today for the murder of her newly born baby girl ten days ago.

Miss Jackson, who is colored, told the police that she saturated a cloth in carbolic acid, and wiped off the baby's lips. Then she dipped the rag into the poisonous acid again, and placed it in the child's mouth, so that acid could not get into the baby's throat.

AUTO HITS BICYCLE; RIDER IS INJURED

WOMAN VICTIM OF PICKPOCKET

"Dip" Robs Mrs. Sophia Manypenny of Purse Containing \$50.

Mrs. Sophia Manypenny, residing along the Y. & O. north of this city, was the victim of "dips," while shopping in downtown business house, Saturday night, it was reported Tuesday morning.

While visiting in a dry goods store, early in the evening, Mrs. Manypenny says her pocketbook containing approximately \$50 was taken from the pocket of her coat.

Mrs. Manypenny believes the theft was committed by a colored woman, whom she recalled as having been seen in the store prior to the time when her money disappeared.

The matter was reported to the police.

D. A. Devine & Sons, general contractors of Alliance, are removing their equipment from the Lisbon road in Madison township to the scene of the proposed improvements to the California Hollow road, leading out of East Liverpool, through Cannons Mill, which connects with the Lincoln Highway, about seven miles north of this city.

A large force of men started work Monday on the erection of stables and temporary quarters for the men, near the Y. & O. substation. Some grading work on the road will be done this winter in order that the paving can be started early in the spring. Devine's work is the completion of the roadway from the East Liverpool corporate limits to a point near the Y. & O. substation. The road will be paved with brick set in a concrete base 16 feet in width.

George Patterson of Wellsville, has removed a steam shovel and other equipment to the scene of the proposed improvement to the Fredericktown road. Brick, for the improvement, were bought when the contract was first awarded but no grading work has been done.

Improvement for which the Wellsville firm has the contract starts at the end of the present brick road about a mile north of Calcutta and extends to a point near the W. L. Thompson farm entrance, about a mile on this side of Fredericktown. The proposed improvement is over a mile in length. This road too will be completed next summer.

ACCUSED GIRL OUTWITTED COP

While Constable Thomas Jackson Waited for Her to Change Clothes, Edna Tice Made Her Escape.

Edna Tice, aged about 20 years, wanted by local, East Liverpool and county authorities on larceny charges, gain escaped arrest Monday night at her home on the Lisbon road, a short distance from Wellsville.

The Tice girl was arrested several weeks ago by East Liverpool police, charged with the theft of wearing apparel from an Avondale street home in that city. She was released later, to be given a chance to make good. It is alleged that a short time later she was accused of stealing clothes valued at \$60 from a home in East Liverpool. Since that time she has been in hiding here, it is believed.

Wellsville police, having information that she was at her home in the Lisbon road Monday night, notified Thomas Jackson, with powers of a constable, at Hibbett's Mills, and instructed him to place her under arrest and bring her to the city hall at Wellsville.

Jackson, about 8 o'clock Monday evening, approached the house, glanced through the window and saw the girl. He stepped inside and arrested her. The girl offered no resistance, and told Jackson she would accompany him to Wellsville if he would wait a few minutes till she changed clothes. Jackson waited, as time went on and the girl did not appear, he became suspicious and began a search through the house. The girl had gone. It is believed that she dropped her clothing out of the window of her room and escaped by the same route.

BOXING AND WRESTLING BOUTS HERE DEC. 15

Under the auspices of Norman Zeigler of the McKinney Athletic club of Canton, a double bill of boxing and wrestling will be given at the city hall auditorium Monday evening, December 15, it is announced.

The feature event of the program will be a match to the finish between Jean Mazzan, Italian grappler of Canton, and Al Williams, of Indianapolis. Mazzan will weigh in at about 210 pounds, while his opponent tips the scale at 212.

Mazzan was challenged here by John Ellis last winter before local fans, but the two wrestlers have not yet managed to make arrangements for the bout.

The program will open with a boxing match of 10 rounds between Young Barton of Canton and K. O. McGuire of Pittsburgh, both lightweights. Other preliminaries will be staged also, it is announced.

WHITE WAY HIT BY BAN

Wellsville's white way will be lighted every night, according to city officials, Tuesday morning, in spite of the order by Harry A. Garfield, fuel administrator, announced Tuesday.

Due to the miners' strike, most of the drastic restrictions on lighting and heating in effect during the last coal shortage in 1917, will be restored through Garfield's order. The limitations will be enforced by the railroad administration, but apply in the most cases to consumers of bituminous coal and coke. It is declared.

One of the restrictions as announced affecting street lighting, is as follows:

"No ornamental lights, white way or other unnecessary street lights, outline lighting, electric signs, or illuminated bill boards, show window or house lights, are to be operated. This does not affect street lighting necessary for the safety of the public."

According to city officials Tuesday the white way system will be classed as necessary here, even though the ban, in the list of restrictions, is put on it. It was announced that following the complete installation of the system here, the street lights which are now in use in Main street from Third street to Eighteenth street, will be cut out. The white system, it is said, will provide all the necessary illumination for Main street, as here are four standards erected at every street intersection and others between intersections, thereby complying with the order.

It was the belief of officials here that the white way system would be a operation by Christmas. The George Cutter company of South Bend, Ind., advised city officials here that the new tops for the standards, lack of which was holding up the installation work, had been shipped.

The Loyal Order of Moose No. 1014, of Wellsville, will hold their First Dance at the Wellsville City Hall, Wednesday evening, Dec. 10, 1919. Stillwell's Society Orchestra. Everyone invited. Dances to suit all.

DEALERS APPEAL TO RAIL AGENT FOR COAL

It was stated by the directors of the commerce body that all coal dealers here were willing to co-operate to the fullest extent with the city officials who are seeking to relieve the coal situation.

Domestic consumers were offered a little hope when it was announced Monday afternoon that two local coal dealers had each received a car of coal.

TRAIN SERVICE CUT TO CONSERVE FUEL

BRYANT WASHBURN IN FILM AT DIAMOND

The unusual title, "A Very Good Young Man," fittingly describes the role played by Bryant Washburn in his latest Paramount picture of that name, which will be shown at the Diamond theatre, Tuesday and Wednesday.

He is in this characterization, a very good young man, indeed, with emphasis on the "very." In fact, he is so good that his sweetheart, despite her love for him, is obsessed with the fear that the bad within him has not yet taken form and will probably come forth in all its fury after their marriage and make her lot an unhappy one. So she refuses to become his wife.

Whereupon, the good young man decides that he will practice all the virtues and thus, after getting them out of his system, will go to his beloved with a beautiful record of wrong-doing and demand her hand in marriage.

He enters the game for all it is worth and gets into some pretty mix ups, but at the finish he finds that on every hand each of his supposed crimes has proven a boon to someone instead of an injury, and gives up hope of ever being a crook.

LILLIAN GISH IN "BROKEN BLOSSOMS"

Miss Lillian Gish has again proved her remarkable talent as a screen actress in her performance of Lucy, the child in "Broken Blossoms," D. W. Griffith's art sensation, soon to be shown at the American theatre. In Thomas Burke's story, "The Child and the Child," taken from "Limehouse Nights," Lucy, the daughter of "Battling Burrows," is supposed to be 12 years old, but with the license of the artistic producer, Mr. Griffith took the liberty of adding three years to her age.

Few who see her performances as Lucy will forget that tragic moment when at her bullying father's command she tries to push her way into the semblance of a smile. Mr. Griffith declares that this was a purely involuntary piece of acting; for when, during the photoplay of the first scene of cruelty between her father and her self and she was all in very real tears, he suggested as director, that she smile through her tears. She tried to smile, but could not, and then, quite naturally and without thought of artifice, she, with trembling fingers tried to push up the corners of her lips. It was so pathetic and human a gesture that Mr. Griffith at once realized its value and it remains one of the striking notes of the performance of this moving "tale of loves and lovers."

"Hearts of World," D. W. Griffith's supreme triumph, will be the attraction at the Ceramic theatre, three days, starting Thursday, Dec. 11. This production comes to this city in the very height of its remarkable success and with the record of having far surpassed Mr. Griffith's "The Birth of a Nation" and "Intolerance," both of which established this dramatic genius the greatest producer of entertainments and spectacles.

Contrary to the general impression, "Hearts of the World" is not a war play, although Mr. Griffith spent 18 months in Europe securing the material employed in the latter part of his story. The producer himself described it as "The story of a village, an old fashioned play with a new-fashioned theme." While the recent struggle in Europe is shown in all its magnitude and reality, it serves only as the background for a very happy story of the lives of very simple folk in a small village in France, where lovers dream under the music of moonlight on casement windows and where the very air has stirred the hearts of the greatest lovers, in history.

DOROTHY DALTON STARS IN STRAND PHOTOPLAY

A new twist to the old story of the country girl who comes to New York in search of fame is given by "The Market of Souls," the new Paramount-Artcraft picture starring Dorothy Dalton, which is being shown at the Strand theatre today. Miss Dalton plays the role of a girl from upstate New York, who has been trained as a nurse and came to the big city to follow her profession. There she meets two brothers—one a "roundier," the other a real man. Forthwith her exciting adventures commence. How she finds happiness with the man she loves, after the evil brother has explained his wrong by meeting a soldier's death on the battlefield, forms the plot of what is said to be the greatest photoplay in which Miss Dalton has yet been seen.

ELKS IN ROLE OF SANTA CLAUS.

Santa Claus will not overlook any children in East Liverpool Christmas day.

While the grand old man, due to the demands that are made upon the pocketbook to provide food and clothing in many households, will be unable to make a personal visit to the various homes, the co-operation of church societies and fraternal organizations will make it possible for scores of children to be blessed with all the joys of the yuletide season.

And one of the organizations that will play a prominent part in providing for the little ones will be the East Liverpool lodge of Elks. Announcement was made Monday that this fraternal society would pursue its policy of past years by providing a Christmas treat for six hundred tots.

Eager to lighten the burden of sorrow which frequently invades scores of homes during the Christmas holidays, the local lodge compiles the names of children who are unlikely, because of the circumstances of the family, to be favored by Santa Claus. And then on Christmas day, these little ones are invited to the Elks' temple, where they are given toys, candy and some article of wearing apparel.

Irrespective of the expense in connection with this annual treat to the poor children of East Liverpool, the joy that is brought to the hearts of 600 little ones more than repays the lodge for its generosity.

But for the Elks' lodge and the many church societies, who also provide Christmas treats for children, there would be a sad Christmas for hundreds of East Liverpool tots.

FEDERAL EMPLOYMENT BUREAUS.

One of the most serious examples of misplaced public economy in the midst of other extravagance is the closing of the government employment bureaus for lack of funds. Congress failed to provide appropriations for this important enterprise, and on Oct. 10 the last remaining public employment bureaus under the Department of Labor were compelled to stop their work.

There are only nine states in the union that are equipped with adequate public employment organizations. Many cities and states, realizing the greater usefulness of the federal employment service, had deliberately refrained from developing purely local bureaus.

The fact that the New York offices alone were placing 3,000 workers a week, of whom 500 to 800 were returned soldiers, speaks volumes for the importance and usefulness of this branch of government service.

Past experience has developed the fact that real efficiency in this work comes only with continuity, enabling the establishment of regular connections with employers. This makes the calling for help through the public employment agency habitual, and makes it possible to train officers through daily experience for the peculiar needs of any one locality and also for the wider area of the whole country.

There is a bill now pending in congress, the Kenyon-Nolan bill, for the establishment of a permanent employment service. Persons qualified to judge maintain that this work is essential, and that it is best done by Uncle Sam. Certainly in these times of industrial uncertainty the need is obvious for some permanent and uniform organization, with ample financial backing to guarantee real service and steady development of possibilities.

LADY ASTOR'S HAT.

There seems to have been a good deal of interest aroused by Lady Astor's hat—not the hat she threw into the ring, but the one she wore on entering the British parliament.

"I am going to wear my hat in the Commons," she announced; and she did. Why not? It is the immemorial prerogative of male members to wear their hats in the House of Commons, and why should a female member do otherwise?

The question arose, then, what kind of chapeau would this American-English aristocrat use to cover her pretty head when she made her historic entry into that very masculine legislature? Would it be a Paris creation, worthy of her beauty and social station? Or would it be a plain "bowler," such as Englishmen are given to wearing in their law-making and Englishwomen in their horseback-riding?

Well, she has done it, and the great secret is out. She wore, and continues to wear, a "plain black turban," which makes an appropriate top-piece for a "plain black tailored suit, with a white collar and no jewels."

Let democratic Americans contemplate not only that turban, but the collar and the lack of jewels, in a woman who by birth and rearing, and particularly by present environment, as one of the great ladies of England, could wear any feminine frippery that heart might desire. Having chosen the hurly-burly of politics instead of a career of social ease and elegance, she chooses, for her business hours, the simplest, severest costume imaginable—and the most appropriate.

When women go into politics in this sartorial spirit of mingled earnestness and common sense, masculine statesmen had better look out. Plain turbans may be ruling Great Britain yet—and America, too, for that matter.

One might pursue this subject into the realm of American business life, and compare the costume in which Lady Astor legislates for the British Empire with the costumes in which women stenographers, secretaries and clerks in this country do their work. But it is a difficult and perilous subject.

NEW YORK LETTER

By O. O. McIntyre

NEW YORK, Dec. 9.—Thoughts while strolling around Manhattan: Man going home with a Xmas tree across his shoulder. Suppose Xmas tree trimmers or something are on strike for shorter hours. There's Wilton Lackaye in a spiffy overcoat. Great actor. But looks like a tired bloodhound. Soft silk collars with dinner coats. A great idea. Wonder who invented the boiled shirt.

Margolis, the Wall Street barber. Has only one chair. Charges \$1 a shave. Haircut 3 bucks. Made a fortune in tips. Karl Kitchen in a camel's hair coat. Jazz. Seattle Mayor Ole Hanson listening to a street orchestra. They intrigue me too. Wish I could play a saxophone.

Hypnotist giving show on Broadway. Barmains in the saloons now. All the new novels to have paper-backs, I hear. George McManus, the cartoonist, and his wife. Both got fur coats. Pretty soft. Isaac Marossan back from Europe. Wonder how many silk shirts he bought.

Young officers off English Prince's ship seeing the town. There's Joe Neville, Yale's half-back. And he's going to the movies. Butler pulling down the shades in a Fifth Avenue home. They are lonesome looking guys. Models leaving Hickson's for lunch. Snappy.

Arthur Chapman in town. Wrote "Out Where the West Begins." A great poem. Horatio Alger, Jr., books on sale. How foolish for libraries to bar them. All were the same. Poor boy gets rich and foils the villain. Much better than the usual Rabelaisian novel. Barroom tales refurbished for the boudoir.

Poor vendors of holly wreaths. ever seem to sell and they look so pathetic. Angora appearing in the shops. Rollin Kirby, the cartoonist. Thinner than I. New kind of a Fifth Avenue coach. Think I'll ride in it.

Lowell Mellett, a well known newspaper correspondent, is the new managing editor of Collier's Weekly. His wife, Bertha Mellett, is a writer of fiction. Recently she was on the last lap of a 30,000 word novelette. She had only three pages to finish. To straighten the pages out flat she placed them inside of a well known weekly magazine and put a dictionary on top. The old story. A maid threw the magazine into the furnace—pages and all. Mrs. Mellett is not given to tears but she confessed she spent a day weeping. Then she braced up, sat down and re-wrote the story in ten days time and it was so much better that she got double the price she expected. This might be a lesson to struggling authors.

At one of the receptions her to the young English Prince a farmer from Connecticut stood in the receiving line. He is a home-spun, one-gallus fellow with the rough edges always showing. As others bowed and breathed "Glad to meet Your Highness" and usual set salutations the Connecticut man seemed unmoved when it came his time he grabbed the Prince's hand and said: "Well how is the Prince business holding up?" Ad the Prince understood, held on to the hand just a bit longer seemingly warmed all over by the little human Yankee touch.

Since prohibition, sailors who frequent New York are carrying bottles of pure alcohol, used on shipboard for mechanical purposes about town with them. With "shots" of the alcohol they pep up harmless drinks. It is said that thousands are acquiring a taste for the deadly stuff, which usually ends in some serious mental disorder. Many girls who consort with sailors are also said to be acquiring the pure alcohol habit. Warnings are now being sounded in the New York newspapers from medical authorities as to the danger of the new kind of drink.

HER AUNT'S PIN

By JACK LAWTON.

Daisy May thought him a very nice young man as he seated himself at her side in the trolley. It was the only vacant seat in the last car going to the city and though Uncle Dexter was emphatic in advising against entering into conversation with strangers, Daisy May found herself unequal to snubbing this pleasant young man's polite advances. He had been so kind about adjusting the window to just the proper opening and had offered his paper with immediate self-effacement.

Daisy May regarded him furtively as he pretended to read. He was not much older than herself, she thought, and had a frank, open countenance.

"More robberies," commented the young man. "Ever see anything like it? Regular 'holdups' everywhere, can't be safe walking down the street."

He flashed a sunny smile at her. "Better hold on to your purse when you reach the city," he admonished.

"I will," answered Daisy May. "Uncle Baxter warned me about that. Not that they'd get much money," she added laughingly.

She had been commissioned to take two diamonds to the city to have them reset in a ring. The ring was to be a gift for herself, but this Daisy May did not know.

She snapped the tasseled bag together and rode on for some time in silence. But the young man's eyes were upon her, she felt them consciously.

When he offered his magazine she accepted it with a remorseful smile. How utterly unreasonable to suspect every stranger of thieving motives.

The usually tiresome trolley trip passed by as if on happy wings. Daisy May was regretful that at its finish she would see the young man no more. His regret was evident. With succeeding miles his gay spirits vanished and he grew sadly serious.

"I suppose," he suggested tentatively, "there'd be no such luck as meeting you occasionally on this same train."

"I do not," Daisy May severely informed him, "continue acquaintance with persons to whom I have not been introduced."

The young man relapsed promptly into the depths of despair.

Daisy May opening the bag a little later for a last precautionary glance at Aunt Cynthia's pin, gave a quick startled cry, the pin was not there. In troubled haste she turned to her moody companion.

"My diamond pin is gone," she murmured. "You saw it in my bag a few moments ago, did you not?"

The young man looked deliberately into her excited face.

"I saw nothing in your bag," he insisted.

Daisy May gasped. She had been so sure that he had. The conductor coming along at that moment was made aware of her distress.

Carefully, cushioned seats and floor were examined. The pin was not to be found.

The young man obligingly entered into the search. Daisy May sat perplexed and baffled.

"The diamonds were very valuable," she said hopelessly, "and the pin was not my own."

Surrounding passengers arose, shaking their wraps and overcoats.

"Pins sometimes fly about," they said.

An Italian nearby vindictively turned his pockets inside out, offering his coat to be searched. But the nice young man made no examination of his clothing, silently returning to his seat and paper.

"Your coat please?" the conductor demanded, "the pin may have become fastened upon it."

But the conductor did not shake out the coat's folds, instead his hand passed into a deep gaping pocket and when he drew it out again the gleaming pin lay in his palm.

Daisy May leaned tensely forward while the young man's questioning eyes never left her face.

"Thank you," she said at last quietly, and took the pin. The conductor bent over her.

"This man should be forced to explain how the pin came to be in his possession," he said. But Daisy May smiled.

"It really does not matter," she replied, "the young man is with me."

When the conductor had gone her seat companion turned toward her.

"Why did you say that?" he demanded. "Why should you try to shield me when you believe I am guilty?"

"I know that you are not guilty," Daisy May said slowly. "I would know that you were not, against all evidence. Do not ask me to explain why. I believe in you, that's all."

The young man stooped to pick up a gray ball of a glove which had rolled beneath the seat. He gave it to her.

"You threw the pin out of your bag probably when you opened it to get this," he said, "and my wide gaping pocket caught the thing; but after all this, you've got to learn to let me know you better."

"When I first looked into your face I said to myself: 'There's the one girl in the world for you, Jack Temple.' And your believing in me like that, 'against all evidence,' 'against all the world,' I might say, proves that I was right."

"All out," called the conductor.

And two happy-faced young people passed down the steps.

"Gets-It" Peels Your Corns Right Off

Two Drops Will Do It Without Pain or Trouble. Never Fails.

There's only one way to get rid of a corn, and that is to peel it off as you would a banana skin. There is only one corn remover in all the world that does it that way, and that

There's No Corn "Gets-It" Will Not "Get." "Gets-It" is because of this fact that "Gets-It" is today the biggest seller among corn-removers on this planet. It means the end of "corn-budding" for hard corns, soft corns, very old corns, young corns, corns between the toes and calluses, it means a quick, certain finish. "Gets-It" is applied in 2 or 3 seconds. All you need is 2 or 3 drops. As easy to do as signing your name. It does away forever with tape, plasters, bandages, knives, corn-diggers, scissors, files and blood-bringing razors. Ease your corn-pains, be corn-free at last. "Gets-It," the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. Mfgd by E. Lawrence & Co., Chicago, Ill.

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite Influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Pour three-quarters of an ounce of Mentholized Arecine into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and snuff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholized Arecine in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

XMAS PROGRAM
IN CHURCHES

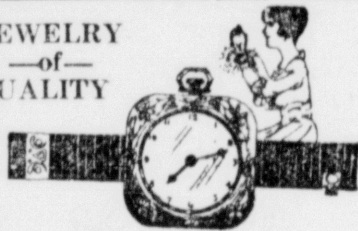

The three Newell churches—First Presbyterian, First Methodist Episcopal and First Christian—will render programs, in observance of Christmas according to announcements which have just been made.

At the first Methodist Episcopal church a cantata entitled, "A Joke on Santa Claus" will be carried out, with the members of the Sunday school acting in the principal roles. A treat will be given the children, according to present arrangements.

While it has been decided to stage an entertainment at the First Christian church, no definite plans have yet been carried out but whether it will be at one of the services on the Sunday preceding Christmas or some other evening set apart for the affair is yet to be determined.

The entertainment at the First Presbyterian church will take place Friday evening, Dec. 26. Mrs. Sterling Carson is chairman of the committee in charge and an interesting program has been arranged. Rehearsals have already started. It is probable that each child will be presented with a box of candy or some other treat, this having been the custom for several years.

ALLEGED SLAYER IS
REPORTED IN NEWELL

It developed here Monday that Dick Howell, former East Liverpool man, wanted for murder of a Canton detective, spent three days in and about Newell last week.

According to a report about town, Howell maintained his headquarters in a houseboat, moored along the river banks near the Panhandle railroad station, at the foot of First street during his stay here. The houseboat was raided by Sheriff Armour S. Cooper, Chief of Police McDermott of East Liverpool, two plainclothes men from Canton and a squad of deputies, Sunday afternoon but no trace of Howell could be found.

Howell is said to have visited at Newell pool rooms Saturday night and was recognized by several men. However, he left the place before the police could be notified.

A reward of \$500 has been offered for Howell's capture, dead or alive.

Attend Membership Meeting

Miss Florence Moss, secretary of the Hancock county chapter of the American Red Cross and a number of Newell people are attending the annual membership meeting of the organization being held in the offices of the Weirton Steel company at Weirton, Tuesday afternoon.

New officers are being named at this meeting and other business of importance is to be transacted.

Meeting of Manufacturers'

Newell pottery manufacturers will probably be represented at the annual meeting of the West Virginia Manufacturers association which will be held in Wheeling on January 29 and 30. A meeting of the Wheeling members of the association is being held with the officers Tuesday for the purpose of completing arrangements for the annual meeting.

J. J. Holloway of Wheeling is president of the association, J. C. Brady, and M. T. Davis of Charleston, O. T. Frick of Huntington, and J. L. Keener of Morgantown, vice-presidents and J. C. Pritchard of Fairmont, secretary.

PROBE COMMITTEE TO
REPORT ITS FINDINGS

Another mass meeting of Newell citizens will be held in the school building at 7:30 o'clock Tuesday evening, at which time the special committee, appointed to investigate the needs of the Newell volunteer fire department, will make a report of its findings. The committee will also offer a recommendation as to what action it deems best to improve conditions.

This meeting is a continuation of the initial gathering held last week, called for the purpose of arousing interest in improving the fire department. The fire truck, which has been in use here for a number of years is badly in need of repairs, while hose, rubber coats, boots and other such equipment is needed.

The old hose wagon has been placed in commission and will be used until better equipment can be secured.

TWO-FABRIC FROCK IS ALWAYS SMART AND ECONOMICAL

Unusual in cut but highly successful in this afternoon gown of wood brown palette and georgette of the same shade. Frocks like this which combine two fabrics are always popular and modish and when made at home are always economical because remnants may be used. Usually no trimming is used because one fabric sets off the other by contrast.

Chamberlain's Tablets.

These tablets are intended especially for indigestion and constipation. They tone up the stomach and enable it to perform its functions naturally. They act gently on the liver and bowels, thereby restoring the stomach and bowels to a healthy condition. When you feel dull, stupid and constipated give them a trial. You are certain to be pleased with their effect.

Sure Way To Get Rid Of Dandruff

There is one sure way that never fails to remove dandruff completely and the is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon, apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments, corrects urinary trouble and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention the East Liverpool Review. Large and medium size bottles for sale at all drug stores.

Covers were laid for ten guests at the three course luncheon.

Miss Margaret Sylvie will receive the club at her home, 1012 Avondale street, Thursday evening, Dec. 18th.

A small deposit will hold any article until Christmas. Shop early. Stewart the Jeweler, 118 West Sixth Street.

CARBON!

Pid System of Clogged-up Waste and Poisons with "Cascarets."

Carbon clogs and chokes a motor, so the excess bile in liver, and the constipated waste in the bowels, produce foggy brains, headache, sour acid stomach, indigestion, sallow skin, sleepless nights, and bad colds.

Let gentle, harmless "Cascarets" rid the system of the toxins, acids, gases and poisons which are keeping you down.

Take Cascarets and enjoy the nicest, gentlest laxative-cathartic you ever experienced. Cascarets never grip, sicken, or cause inconvenience. They work while you sleep. A box of Cascarets costs so little too.

Want to Feel Just Right?

Take an NR Tonight

JUST TRY IT AND SEE how much better you feel in the morning. That "lazier," headache, tired, don't-know-what's-the-matter feeling will be gone—you'll feel fine.

TROUBLE IS, your system is clogged with a lot of impurities that your over-worked digestive and eliminative organs can't get rid of. Pills, oil, salts, and ordinary laxatives, cathartics and purges only force the bowels and prod the liver.

Nature's Remedy (NR Tablets) acts on the stomach, liver, bowels and even kidneys, not forcing, but toning and strengthening these organs. The result is prompt relief and real, lasting benefit. Make the test. Nature's Remedy will act promptly, thoroughly, yet so mildly, so gently, that you will think nature herself has come to the rescue and is doing the work.

And oh, what relief! You'll be surprised to find how much better you feel—brighter, better every way.

If habitually or stubbornly constipated, take one NR Tablet each night for a week. Then you'll not have to take medicine every day. Just an occasional NR Tablet should keep your system in good condition—keep you feeling fine.

CLOSE SCHOOLS DECEMBER 23

The Chester public schools will suspend for the Christmas holiday vacation on Tuesday, December 23, Superintendent of Schools Elmer E. Oldaker announced Tuesday morning. They will re-open again on Monday, January 5 allowing the school children about a 12-day vacation.

Because of the state law, which does not permit the closing of schools for a holiday only, the two days lost in the local schools on Labor Day and Thanksgiving Day, when there were no classes, must be made up and for this reason, there will be school on Monday and Tuesday, Dec. 22 and 23. By holding school on these two days, four school months will have been completed before the holiday recess.

Fitting programs in keeping with the Christmas season will be carried out in all of the several grade rooms and in the high school on the closing day of school. The entire afternoon session on Dec. 23 will be given over for the rendition of programs. Parents and friends of the school children have been invited to these exercises, Supt. Oldaker announced Tuesday morning.

TWO VILLAGES HIT BY SMALLPOX EPIDEMIC

But little change is noted in the smallpox epidemic, which has held parts of Beaver county in its grip for the past several days. The two villages of Kendall and Poe Pa., located several miles back of Chester are affected by the epidemic.

County Medical Inspector Bruce Snodgrass of Beaver Falls has assumed charge of the situation. Several cases are said to have developed in the communities, causing much alarm to the residents of the southern part of Beaver county. Quarantine regulations have been established and pupils of the public schools of the affected area have been ordered vaccinated.

FUEL RESTRICTIONS TO HIT CHESTER PLANTS

Chester industries are sure to be affected by the drastic regulations on lighting and heating, which became effective last midnight, upon the order of Fuel Administrator Garfield.

Although the plant has been operating on a full time basis, the Chester works of the American Sheet & Tin plate company must cut down its working time to three days a week by the order. This order hits all industries, using coal, which are not regarded as absolutely essential.

As the local potteries do not operate with coal, the order, which cuts down operation fifty percent will not effect work there. However, the plant of the Chester Cord Tire corporation will likely be hit by the regulations as boilers at this plant are fired with coal.

A Wide Margin of Safety

A MAN about to hire a chauffeur asked each applicant how near he could drive to the edge of a precipice.

One said a foot, another said six inches, a third said two inches. But the fourth said, "I keep just as far away from a precipice as I can." He was hired.

The wise property owner, like the careful chauffeur, prefers a wide margin of safety. He insures his possessions to the limit and then takes every precaution against fire.

"Anne Of Green Gables"

A REAL ART PICTURE

STARRING
Mary Miles Minter

Rags became royal raiment when Anne let loose her wonderful imagination. She bubbled over with ideas that often got her into hot water and there never was a minute when she wasn't up to some sort of mischief. Once she imagined that she was a boy and that is how she came to leave the orphanage.

SOLONS PLAN PROGRAM FOR STREET PAVING

Ordinances Providing for Improvements Enacted at Session Monday.

TO BORROW \$10,000

Correction Made In Street Assessment Against Trac-tion Co.

Street improvements are authorized in several ordinances passed at the councilmanic meeting Monday night. The streets to be repaved are: Sixth street from the Diamond to the east side of Jefferson street; West Fifth street from Market to the east side of Monroe street; Washington street from Sixth to Fourth; Eighth street from Lisbon street to the east side of the bridge crossing Jethro hollow.

An ordinance was passed directing the city engineer to prepare a plat, properly indexed and in book form, of the city street and sewer system.

Another measure provides that all water and gas plugs be placed within six inches of the inside curb. They must be laid on a level with the sidewalk or street. Property owners not conforming with these regulations will be fined.

The city auditor was authorized to borrow \$10,000 and issue bonds for the same, to pay the balance due the contractors on the Pennsylvania avenue, Elizabeth street and Harvey avenue improvements.

Receipts of the mayor's office for the month of November were \$138, according to a report received.

Several communications from the board of health were referred to the service director.

The city auditor was authorized to correct a mistake of \$579.68 against the Steubenville, East Liverpool and Beaver Valley Traction company, in the assessments on the Harvey avenue improvements. The mistake was due to a clerical error.

CLUB OWNERS MEET THURSDAY

By JACK VIEOCK. NEW YORK, Dec. 9.—With the arrival here today of Ban Johnson and his five "loyal" club owners from Chicago, the stage is set for a showdown in the battle between the rival American league factions which has been shaking the foundation of the junior major for several months.

The climax in the "war of injunctions" will be reached tomorrow when the American leaguers will assemble at the Hotel Biltmore in answer to the call issued by the insurgent faction.

The success of Directors Ruppert, Comiskey and Frazee in forcing the league to hold its meeting here is considered a moral victory. Yet despite war-like attitudes still discernible on both sides, the peace dove is twittering in the office. The recent visit to New York of Frank Navin, president of the Detroit club, marked the first step toward peace and baseball men are predicting today that "Big Ban" and his league will get together and iron out their differences.

Meanwhile the magnates of the National league went into session at the Waldorf today with Harmony the keynote of the meeting and optimism running rampant over prospects for 1920. The Nationals have no quarrels among themselves.

Should Be Quarantined. Many physicians believe that anyone who has a bad cold should be completely isolated to prevent other members of the family and associates from contracting the disease as colds are about as catching as measles. One thing sure—the sooner one rids himself of a cold the less danger, and you will look a good while before you find a better medicine than Chamberlain's Cough Remedy to aid you in curing a cold.

OHIO WESLEYAN WILL LOSE GRID STARS

DELAWARE, Dec. 9.—Several of Ohio Wesleyan's best football men will leave school this year. Among this number will be Robert K. Edler of Gallien, who was captain of the 1919 eleven.

Edler has earned an enviable reputation in Ohio football as a backfield man. Probably his greatest game was the contest in which he played against Denison in the great homecoming feature Nov. 15. Although handicapped with a broken cheek bone which had not healed entirely, the Wesleyan captain did sensational work carrying the ball. His plunging has always been one of his strongest points.

Edler has made his letter in baseball and basketball, and will perform in both of these sports again this year.

Ensign, the greatest track man ever turned out by an Ohio school, will be another lost to the football squad along with Hanson and Miller, both returned soldiers. Groves, who played last year, and Wee, the diminutive Chinese player returned from Y. M. C. A. work overseas, will be the other men receiving their diplomas this year.

Critics Give Coulin Edge. DAYTON, Dec. 9.—Although the referee called "draw," fight fans and the papers say Harry Coulin, Buffalo, bantam, gave Blockley Richards, Dayton, a good trouncing at the Dayton Gym club last night in their twelve rounds. Mike O'Leary, Dayton, and Mickey Forkens, New Castle, Indiana, fought eight fast rounds getting a draw, while Kid Scofield, Dayton, and Young Strum, Dayton, closed their six rounds in the fifth, when Strum went down and out. In the second of four rounds, Kid Gleason stopped Arthur Shaw, both local lads.

HOW HE ENDED KIDNEY TROUBLE. "I had a severe attack of kidney trouble and for three weeks could not get out of doors and scarcely out of bed," writes C. E. Brewer, Village Springs, Ala. "Could not bend over at all without the most excruciating pains. I purchased a bottle of Foley's Kidney Pills. Was relieved after first few doses and continued their use until completely cured. I consider Foley's Kidney Pills the best kidney remedy in the world. No recurrence of my trouble." For sale at Bulger's Pharmacy and McCutcheon Drug Store.

Your liver—healthy or clogged, active or sluggish—makes all the difference between a vigorous, cheerful life and low spirits and failure. AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark Glossy.

Almost every one knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Every body uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

MEET HOTEL BOARD CALLED

Further steps looking toward the erection of a modern hotel for East Liverpool will be taken at a meeting of the hotel committee of the Chamber of Commerce to be held Wednesday evening in the offices of the Knowles, Taylor & Knowles lottery company, Walnut street, it was announced Tuesday by W. I. Lewis, secretary of the committee.

An experienced hotel man from Cleveland will attend Wednesday's meeting. Ways and means for financing the proposed building will also be considered at this time.

It is believed that definite action looking toward the erection of the proposed hotel here will be taken at this meeting. This proposition has been hanging fire for several months. Both business men and manufacturers are interested in the matter, realizing the needs of East Liverpool for an up-to-date hotel.

RECIPES FOR A DAY

Pimento Loaf—One pound of lean round steak, one-half cup dry bread crumbs, one-half cup stewed tomatoes, two tablespoons oil, one and one-half pimentos, beef stock or water one-half cup, salt one teaspoon.

Add bread crumbs, fresh or canned tomatoes, melted oil, chopped pimentos, beef stock and salt to taste.

Shape in a loaf, place in buttered pan. Bake in hot oven, basting frequently, first with stock and later with liquid in pan. Make gravy with stock left in pan.

Apple Salad—Pare and core one apple to each person. Place in pan; add three-quarter cup sugar and one-third cup water. Bake in moderate oven. Baste often until apples are done. Do not allow to lose shape. When apples are cold place on nests of lettuce leaves.

Fill centers with cheese softened with cream. Dash with paprika. For a company salad add chopped nuts to cheese. Serve with mayonnaise.

TO PREPARE RABBITS

To Dress a Rabbit—In killing grasp the rabbit firmly by the hind legs head hanging downward, and strike the animal a sharp blow on the back of the head. The throat should be cut immediately, and the rabbit thoracically bled. Hang up by the gambel joints as you would a sheep or hog.

To Skin a Rabbit—Cut off the head and feet. Make a cut through the skin across the middle of the back. Put both hands into the cut and draw the skin back until it comes to the legs.

Grasp the body in the left hand and draws the skin off over the legs with the right hand.

To Clean a Rabbit—Make an incision down the abdomen to neck, being careful not to cut entrails; remove same, wash carcass and soak.

Cooking—Much of the excellence of the rabbit as food depends on the manner of cooking it.

BRIGHT SPOT IN THE DAY'S NEWS

The federal government has failed to reduce the high cost of living, according to many persons. In view of this situation, it is interesting to note that an effective reduction in the cost of meats has been announced at St. Clairsville. This lowering of prices is the result of a dealers' war.

One retailer has announced the following prices: Beef boiling 15c a pound; beef roast, 20c; beef steak 25c; pork roast, 25c; pork chops, 20c; fresh ham, 25c; lard, 30c.

BUZYRUS—W. D. Ashbaugh, Toledo & Ohio Central freight engineer, has returned from the Maine woods with his usual deer, which he has presented to his brother Elks for a venison supper at the Elk club in the near future. This will be the third annual dinner donated to the Elks by Mr. Ashbaugh.

Beauty Answers

By MADAME MAREE

STRENGTHENING and enlarging the roots of the hair is one of the real secrets of forcing hair to grow, something which has heretofore not been fully realized. Merely stimulating the surface of the scalp will not stimulate the hair growth to the extent desired. By the new method just mentioned hair can be forced to grow several inches a month. Hair will stop falling as if by magic. The new vigor of the hair will be quickly noticed, and all bald spots will be soon entirely filled out with new sprouts. This can all be easily obtained by the simple use of beta-quinol, which can be secured at any drug store in the original one-ounce package for 50 cents. This can be easily mixed at home with a half pint of bay rum and a half pint of water. It contains no oil whatever.

MISS YEARS—On the contrary, removing wrinkles is easy, very easy, astonishingly easy. And it takes but two or three minutes a day and a few cents expense. That you can do it surely and positively will be proven to you absolutely in your mirror in a few days. I dare say, nothing has ever been known to produce such results as by the formula which I give you here. From your druggist get two ounces of opol, which will cost 50 cents, and mix with one tablespoonful of glycerine in half a pint of water. Mix thoroughly. The cream that results should be used very liberally and every day. Quickly you will notice the little wrinkles, deep wrinkles, crow's feet and heavy lines giving way before an ever increasing plumpness of the skin, and years seem literally to be taken from the face.

ALL OVER—It is the easiest thing you can imagine to get rid of blackheads. They can be removed in a few minutes—and if you doubt it, just get some powdered norexin at the drug store for fifty cents, sprinkle some of it on a wet cloth and rub it on the blackheads. Then look in the mirror and try to see them—you'll be surprised.

LAUDS AMERICAN WOMEN

Reveals Secret of U. S. Girls
In Winning Position
Abroad.

LONDON, Dec. 9. — The American man is picked as the best husband in the world by Elinor Glyn, famous British novelist, in an article in the "Ladies' Field."

"Nearly all of those wonderful people who spring into social fame with the speed of comets as a result of their own force and efforts are Americans," says the writer.

"Especially the American woman possesses vitality and tenacity unknown to the women of any other country in the world. Unlike the English women they do not have to worry over getting a husband for there are plenty of men to go round in the United States. American women do not have to make any effort whatsoever to get a husband. All they have to do is to exercise their choice. That is what makes them so successful when they come to Europe. They have the ingrained sense of superiority. Their assurance is not assumed; it is natural and instinctive. It is due to the fact that they are rare and valuable creatures."

"From the beginning the American women had to be protected from Indians and wild beasts. Later their favor was fought for because of their scarcity."

"In England it is the men who have always mattered most in the development of the country. The British men have evolved a race of assured creatures who have the same charm. In a way, that the American possesses."

"Consequently when an American woman feels that she wants great position in England and if she has much money, there is nothing to prevent her from obtaining it. She has been queen in her own country, so why not queen in another country."

"English women are beginning to emerge from their diffidence, though it may take some generations before they attain their balance again. American assurance they never can attain unless there comes a plague to reduce their numbers. The continual subconscious mate hunt could then go to sleep."

"It can be accepted from an elderly woman who has seen men from most of the countries of Europe that no other nation can compare in absolute all-round attraction to the really nice adorable English gentleman. But if I wanted kindness, consideration and absence of disturbing thrills I would choose the American for a husband after a man of any nation in the world."

PERSIAN TRIMMING RETURNS TO FAVOR

In this smart gown by Lady Duff Gordon the severity of line is relieved by a deft loop in the skirt. The material is Havana brown duvetyne and the trimming is Persian braid. The rich tones of the Persian weave materials have long been popular and their return to favor as a trim will be gladly received by most women.

AT THE CERAMIC TODAY AND TOMORROW

St. Clairsville—Plans are being made here for a celebration in 1922 of the centennial of the start of the construction of the National road through Ohio. According to Howe's Historical Collections of Ohio, Ethan A. Brown, in 1821, then governor, turned the first spadeful of earth in front of where the present Belmont county court house stands here. The

road had previously been built from Baltimore to Wheeling. Belmont county was the first in Ohio to pave this road across its entire breadth.

Wooster—Miss Etta V. Thome, who taught in the Wooster primary grades for 30 years, missing but seven days of work, died here Sunday.

NOTHING that we could say would so thoroughly convince you of the value of Chamberlain's Tablets as a personal trial. That always convinces.

BIG FILM OFFERING AT CERAMIC THEATRE

Drama of squatter life on "Goose Island," in which is pictured a powerful story of romance and hate, will be presented at the Ceramic theatre Tuesday and Wednesday under the title of "The Price of Innocence," with Stella Talbot in the star role.

As Mary Aldron, an unusual type of squatter girl, she makes a sacrifice of her honor and position among her people to save them from the efforts of a wealthy young proper owner from the mainland to drive them "into the sea or anywhere," as part of his plan to gain possession of the island. But the islanders have a fighting champion in Mary Aldron.

Confronted by the man who had sought to disgrace her forever, and shrinking beneath the tortuous, fiery red cross held poised by Carleton, Mary beseeches Greyson to declare her innocence. In the midst of this sensational situation the climax of the story is reached by a sudden and bewildering scene replete with surprise and the unexpected.

There is also a beautiful pictorial review, and a screamingly funny Senett comedy, "The Movie Star," featuring Mack Swain.

Finland was one of the first countries to employ women extensively in the government service.

First Home Game on Dec. 26 with Steubenville—Girls' Teams Play on Same Night.

East Liverpool high school's basketball team will open its 1919-20 season on Friday evening, Dec. 26, on the local gym floor, according to an announcement by Faculty Manager W. Robinson. Manager Robinson has scheduled the Steubenville high passers for that date.

Although the game with Steubenville will be the opening engagement of the season at East Liverpool it is not likely that it will be the first scuffle for the blue and white. Negotiations are now on with another well known school five for a game on Friday evening, Dec. 19. This game, however, will be played away from

home and will officially open the season for the local squad. Manager Robinson announces that definite arrangements for this game have not yet been completed, but some result will likely be known within the next few days.

The blue and white candidates are working out daily at the high school gymnasium under the supervision of Coach Bill Watkins. Both Coach Watkins and supporters of the team are confident that the season will be a successful one. With an entire team of veterans to start with Watkins' only trouble will likely be the elimination of other good material as it is probable that only eight players will be carried.

The girls' team will furnish the preliminary to the other game when Steubenville comes here on the 26th. The girls of the blue and white will play the lassies from Jefferson county preceding the other contest.

DOWN THE ALLEYS

By "CHEESE."

McMillan and Chambers both gained admittance to the select circle last week at the Grand alleys by rolling 200 scores.

Judging from the amount of interest shown in the individual league at the Grand alleys, prospective prize winners will have to show form to cop the laurels.

Old Helmle gets down on his knee. His pep has started to jell. While Chambers and Canine, With arms quite brawny, Both are rolling like—sixty.

Herbert apparently is unable to get a good toe hold. He has lost ten games so far but he attributes this to the fact that he has had a sore toe for a couple of weeks.

All competitors are beginning to show form. Rummy won a couple of games, it is alleged, last week.

Young Sayers is still scattering pins quite recklessly. He won four games last week, averaging 155. The fans are pulling for the youth.

"Butch" Wucher rolled 192 last week. Fans are confident he will roll 200 one of these days but they insist in bringing up the past—that 59 score.

Canine can't bowl without his "brier hill." Last week he threw four balls in the gutter and each time lighted another.

Extra: Wanted all local duck pin bowlers to go to the Grand alleys every afternoon for their trimmings. "Cheese."

Stecher's Title Claim Strengthened. NEW YORK, Dec. 9.—Joe Stecher, the Nebraska farmer boy, has today strengthened his claims to the world's heavyweight wrestling championship as a result of his victory over Wladex Zbyszko.

Stecher pinned his opponent's shoulders to the mat after two hours, 24 minutes and 16 seconds of grappling. Stecher used the body scissors which he has made famous.

INITIAL GAME FOR OHIO STATE FIVE ON DEC. 13

COLUMBUS, Dec. 9.—Twenty-seven games constitute Ohio State's 1919-1920 basketball schedule which has just been announced. In addition to the usual game with Western Conference and Ohio Conference quintets a holiday training trip has been provided as usual. After a rather disastrous season a year ago when prospects for a winning combination were brighter than in years, hopes are entertained that the present aggregation will retrieve some of the laurels lost a year ago.

Due to the press of other duties as head of the department of physical education Director L. W. St. John, member of the national basketball rules committee, who has handled scarlet and gray court teams for the past seven years, has been forced to give up the major part of his basketball work. George M. Trautman, star Ohio State athlete of half a dozen years ago, who has been assistant coach, has been given full charge of the training.

"Mac" MacDonald, lanky center and forward, last winter was elected to captain the present quintet. The new Buckeye leader is a football man. His home is in Columbus. "Chic" Harley, Ohio's surer man of the football field, has not decided whether he will undertake to win a place on the team or not. Harley has won letters in all major sports at Ohio State except basketball.

While a number of football men will be available for the team it is within the bounds of possibility that the team here will be a midge quinter in contrast to more heavier aggregations of the past decade. Yearling material of last year included promising players whose biggest asset was speed and agility rather than brawn. Greenspun of Cleveland and McPherson of the promising sophomores, Jimmy Frances, Canton veteran, is another lightweight who is counted on for a regular berth.

Twelve Big Ten games are carded—Indiana, Illinois, Purdue, Chicago, Michigan and Wisconsin being paired with the Buckeyes for games. In Ohio circles Wooster, Ohio Wesleyan, Wittenberg, Cincinnati, Oberlin, Case and Denison are given places on the local schedule.

Six holiday games will give the Ohioans the edge needed for their post holiday campaigning according to Buckeye coaches. The contests carded are: Dec. 26, Canton Ex-Seniors; Dec. 27, Duquesne club, Youngstown; Dec. 29, Westinghouse club, Wilkinsburg; Dec. 29, Goodyear Tire and Rubber company, Akron; Dec. 31, Toledo, Jan. 1, St. John's University, Toledo.

The complete schedule with teams in the two conferences follows:
Dec. 13—Wooster.
Dec. 18—Ohio Wesleyan.
Jan. 2—Wittenberg at Springfield.
Jan. 3—Cincinnati at Cincinnati.
Jan. 7—Oberlin.
Jan. 10—Indiana.
Jan. 12—Illinois.
Jan. 17—Purdue.
Jan. 30—Chicago at Chicago.
Jan. 31—Michigan at Ann Arbor.
Feb. 2—Ohio Wesleyan at Delaware.
Feb. 9—Illinois.
Feb. 11—Chicago.
Feb. 13—Case at Cleveland.
Feb. 14—Oberlin at Oberlin.
Feb. 21—Denison.
Feb. 24—Wisconsin at Madison.
Feb. 29—Indiana at Bloomington.
March 1—Purdue at Lafayette.
March 8—Wisconsin.
March 13—Michigan.

COUNTY LADS GAIN HONORS ON GRIDIRON

That Columbiana county lads are playing a big part in Ohio college athletics yearly is indicated by the box scores that appear from time to time in the leading dailies and college publications. Columbiana county has always furnished its quota of athletes and will likely continue to do so as long as college sports flourish in this state.

Two of the county's most conspicuous representatives in Ohio circles during the football season just closed were John Billingsley of Lisbon and William of Salem.

Billingsley, former Lisbon high school star gridiron man, was one of the chief factors in the Wooster college football team's wonderful season. Playing right tackle Billingsley was a tower of strength on the offense and on the defense. Opposing teams soon found it was impossible to gain through this big boy's side of the line. By his clean playing and knowledge of the game the Lisbon lad won a place on the All Ohio team as chosen by many sport writers. This was his first year of collegiate football and Wooster fans are counting strong on him for a wonderful season in 1920.

Wooster made an excellent record this year. Eight games were played with Ohio conference teams and in each case Wooster showed superiority. During the season Wooster was scored on but once. In the eight games Wooster scored 235 points.

William played fullback for the Ohio State eleven, which was defeated by Illinois for conference honors. Although the Salem boy did not show up as brilliantly as did the versatile Harley he was in every game playing his best and giving his all for his alma mater.

Youngstown—Jack Perry, Pittsburg, knocked out Milburn Saylor, Indianapolis, in the third round of what was to have been a 12-round bout.

The Kentucky squad beat Indiana 13 to 3.

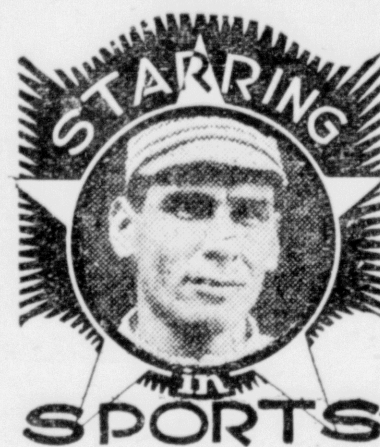

St. Xavier suffered a 65 to 0 defeat and Transylvania was trounced 37 to 0. The University of Virginia set out to stop the Centre team's mad drive and got licked 49 to 7. Then bobbed up West Virginia, which said, "Bring on this young upstart of a team."

The team was brought on and West Virginia was carried off, licked by a 14 to 6 score.

We might as well give the college credit and call it the eastern collegiate champion. Center beat West Virginia as aforesaid. West Virginia beat Princeton. Princeton beat Yale, and only tied Harvard. Harvard and Yale beat Brown. Brown beat Dartmouth. Dartmouth beat Pennsylvania. Penn tied Pitt. Pitt beat W. and J., which team beat Syracuse. And Syracuse beat Colgate.

The Center team was coached by Augie Moran, heretofore known mostly in sportdom as an umpire formerly in the National league.

Philadelphia—Joe Benjamin, Pacific coast lightweight, knocked out Jimmy Murphy in the second round of a scheduled six-round bout.

Chief Albert Bender.

He shook the minor league world by managing and pitching the Richmond Virginia league club to a pennant in 1919.

Big Chief Bender listed long in baseballdom as a star, well may be called a star in a new role. As a comeback the big Indian who hured the Athletics to world fame was one of the sensations of the season.

Bender managed and pitched for the Richmond, Virginia, league club, which copped the league's gonfalon.

His hurling was spectacular in many ways. He won twenty-six games and seven of these were shut-outs. He won nine games in a row before any team halted him. After this one defeat he won eight more straight. He lost another contest and then wound up the season by winning his last nine starts. He fanned 181 men, about seven per game. On July 31 he pulled a Joe McGinnity and beat Portsmouth two games. They got one hit. He hurled a double-header against Newport the next month. Won both. Shut 'em out in one. Gave them one run in the other. All told, he licked Newport four times in five days.

Bender is a Chippewa Indian. He was born in Brainerd, Minn., May 5, 1883. He attended Carlisle Indian school and was first baseman and relief hurler for that team of braves. In 1902 he pitched for Dickinson Col-

Y. M. BELMONT JUNIORS CLAIM FORFEIT GAME

The Y. M. C. A. Belmont Juniors claim a forfeit game, 1-0, from the Wellsville Royal Juniors.

The Wellsville Juniors it is claimed, gave no reason for not showing up on the Y. M. floor at 7:30 o'clock Saturday night.

The "Y" All Star Juniors substituted and were defeated, 43-12 by the Belmonts. The management of the Belmont Juniors announces that the tickets which were sold for the game Saturday night will be good for the next home game on the Belmont schedule, Saturday, December 20.

Ready for Bout Thursday.

NEW YORK, Dec. 9.—Benny Leonard, lightweight champion, and Mel Cogan, the Brooklyn lightweight, finished training today for their eight-round bout tomorrow night at Jersey City. Al Reich and Al Roberts, heavyweights, will meet in a preliminary.

Jackson won four out of five games from Rough last evening at the Grand alleys. Jackson had high score of 167 and high average of 145. Scores: Jackson 135 167 119 141-163 Rough 125 121 143 133 162

played on several teams at Harrisburg, Pa. He was signed up by College at Carlisle. The next year he nie Mack that year. In 1904 he did fair work for Connie, but poor health kept him from hitting his gait until 1906. He did, however, win the deciding game of the 1905 A. L. race by beating Washington. He won the only game from the Giants in the world series that year, whitewashing the McGrawites. He won the deciding game from the Giants in 1911. When Connie Mack decided to break up his veteran team and start a new one Bender went with the others.

innocence, she found herself an outcast—a thing apart. It was her awakening to the age-old truth of the sel-
fishness of man's love. Broadway's Newest Star
